

LEVY COUNTY DEVELOPMENT DEPARTMENT
PERMIT REQUIREMENTS CHECKLIST FOR NEW CONSTRUCTION
ADDITIONS

THE FOLLOWING **MUST** BE PROVIDED AT THE TIME OF APPLICATION FOR BUILDING PERMITS (BY EITHER THE PROPERTY OWNER, OWNER'S AGENT, OR LICENSED CONTRACTOR) TO ENABLE THE BUILDING PERMIT APPLICATION TO BE ACCEPTED BY THE PERMIT CLERK.

1. Proof of ownership of land :

The applicant must provide a contract for deed, warranty deed, or tax statement, inclusive of a complete legal description or parcel identification number.

2. Letter of Authorization:

If applicant is not the owner of the property or a licensed contractor, the applicant must have a site specific, signed and notarized, letter of authorization giving the owner's agent permission to obtain the necessary building permits for the project.

3. Application for Permit- All property owners must sign application and have it notarized

4. Notice of Commencement- Must be recorded in Clerk's Office and a copy brought to our office before first inspection.

5. 3 copies of site plan.- Site plan must be drawn to scale

6. **Zoning Approval within Municipalities (Inglis and Yankeetown)**

For property located within the boundary of a municipality, applicable evidence of municipal approval must be provided before the Levy County Development Department can process the permit application.

7. **2 Complete Sets of Plans and Supporting Construction Documents.**

All applications for new construction of single family dwellings must include truss engineering or roof framing plans, be drawn to scale and provide enough details to demonstrate compliance with one of the approved prescriptive compliance methods, or provide plans designed by a registered professional architect or engineer.

- Plans must state the Design Wind Speed, and that the Design is in Compliance with the latest Edition of the Florida Building Code.
- Plans consisting of multiple pages must be bound in separate sets or they will not be accepted by the permitting staff.

Notice: Any plans for a single family dwelling constructed in a “Wind Bourne Debris Region” or a “Coastal High Hazard Zone” (A.K.A. Velocity Zone, or V-Zone) require professional design (plans must be signed and sealed by a Florida registered architect or engineer) and must provide a V-Zone Certificate. V-Zone Certificate forms are available from the Building Department.

8. **Energy Compliance Form**

All applications for the construction of dwellings are required to document compliance with the “State of Florida Energy Efficiency Code for Building Construction”. All applications must submit two (2) completed and signed copies of form with plans.

9. **Heat, Vent and Air-Conditioning Sizing Calculations:**

All applications for the construction of dwellings must include two (2) copies of a Manual J, and duct plan designed consistent with ACCA, Manual D, or with an applicable ASHRAE computation procedure. The plans must include a return air duct plan; or show the means in which the builder intends to meet the requirement for balanced return air.

10. Verification of Onsite Sewage Disposal system from the Department of Health:

This is a necessary requirement anytime plumbing is involved in your project. You will be required to provide the Building Department with verification of the review of the waste water facilities by the Department of Health before your building permit may be issued. You must provide documentation of the Final approval by the Department of Health for any modifications to an existing system, or of the final inspection of a newly installed system that was required for the project, prior to final inspection of the structure.

11. Owner Builder Affidavit:

This affidavit is required by the same law that exempts property owners from the requirement to hold a valid contractor's license. If the property owner is going to do any portion of work (i.e.: construction, electrical, or plumbing ...) they are required to sign this document, stating they have read, understand and are accepting the same responsibilities contractor's bear for that portion of the work the owner builder permit covers. Some of these responsibilities include federal income tax, social security taxes, and worker's compensation insurance requirements for any employees.

12. Disclaimers:

This document provides written notice that: Levy County is not responsible for maintaining roads not currently in the maintenance system and Although Levy County has a flood prevention ordinance there are no assurances implied that compliance with the ordinance is a guarantee that you will never flood.

Also this notice states that the applicant, contractor or property owner must string at least two property lines to enable the building inspector to document compliance with setbacks shown on site plan on the first inspection; and the applicant, contractor or property owner is responsible for true and accurate property lines shown to the inspector.

13. Contractor Disclosure Form

14. Product Approval Specification sheet: need to have when apply for permit.

THE FOLLOWING ARE ADDITIONAL REQUIREMENTS IF THE PROJECT IS LOCATED WITHING A FLOOD ZONE

15. If your property is located in the regulatory flood way, or the 100 year flood plain adjacent to the Suwannee River, you will need to acquire an Environmental Resource Permit from the Suwannee River Water Management District prior to issuance of building permits.
16. Professional design (architect or engineer sealed) plans and a V-Zone Certificate are required if located in velocity zone (V-Zone) or coastal high hazard construction zone.
17. In the event there is any enclosure(s) an "Elevation Certificate" must be provided to the office within 21 days after finished floor is established and before vertical construction starts (A-Zone); or 21 days after the placement of the lowest horizontal structural member (V-Zone). Then one before final inspection.

NOTICE TO ALL APPLICANTS FOR BUILDING PERMITS

WARNINGS AND DISCLAIMER OF LIABILITY DUE TO FLOODING

The Degree of flood protection required by the Flood Prevention Ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by manmade or natural causes. This ordinance does not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damages. This article of the land development code shall not create liability on the part of the county or by any officer or employee thereof for any flood damages that result from reliance on the flood damage prevention ordinance or an administrative decision lawfully made thereof.

MANDATORY PURCHASE REQUIREMENT

The Mandatory purchase requirement applies to all forms of Federal or Federally related financial assistance for buildings located in a Special Flood Hazard Area (SFHA). This requirement affects loans and grants for the purchase, construction, repair or improvement of any publicly or privately owned building in the SFHA, including machinery, equipment, fixtures, and furnishings contained in such buildings.

CONSTRUCTION PERMITTING IN SUBDIVISIONS WITH UNIMPROVED ROADS

Levy County is not responsible for the repair, maintenance, stabilization or any other improvements to any roadways not within the established maintenance system, and the unplatted roads or easements will not be considered for acceptance into the maintenance system until such time as the establishment of an Municipal Services Taxing Unit to cover the cost of maintenance and the improvement of the road to applicable specifications of the Levy County Subdivision Regulations.

LOT, YARD AND HIGHT REGULATIONS

It is the responsibility of the Landowner to establish the true boundaries of the property, to enable the Development Department to confirm compliance with the setback requirements. On smaller parcels, of 3 acres or less this is mandatory and required by first inspection. This may be accomplished by the use of string or wire between 3 (three) corners of the property, or by the staking out of the building foundation by a licensed surveyor. Regardless of the size of the parcel, when there remains questions as to the compliance of setback, the Building Official or Building Inspector may require a Licensed Professional Surveyor to locate the foundation on a survey map and provide it to the office of the Building Official. The survey to be at the Landowner's expense.

The Building Department **STRONGLY RECOMMENDS** that all applicants for building permits have the property surveyed and provide a to scale site plan prepared by a Licensed Professional.

OWNER/BUILDER AFFIDAVIT FOR CONSTRUCTION, ROOFING AND PLUMBING

DISCLOSURE STATEMENT CONSISTENT WITH FS 489.103(7)

I understand that state law requires construction to be done by a licensed contractor and I have applied for an owner/builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed below, may act as my own contractor with certain restrictions even though I do not have a license.

I understand that building permits are not required to be signed by the property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.

I understand that, as an owner/builder, I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on the permit and contracts.

I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building at a cost not to exceed \$75,000.00. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease. If a building or residence that I have built or substantially improved myself is sold or leased within one(1) year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the license exemption.

I understand that, as the owner/builder, I must provide direct, onsite supervision of the construction.

I understand that I may not hire an unlicensed person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the license required by law and by county or municipal ordinance.

I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner/builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner/builder, may be held liable and subjected to serious financial risk for any injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an owner/builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

I understand that I may not delegate the responsibility for supervising work to licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide worker's compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.

I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner/builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.

I understand that I may obtain more information regarding my obligations as an employer for the Internal Revenue service, the United States Small Business Administration, the Florida Department of Financial Service, and the Florida Department of Revenue. I also understand that I may contact the Florida Construction Industry Licensing Board at **1-850-487-1395** or www.myflorida.com/dbpr/pre/cilb/ for more information about licensed contractors.

I am aware of, and consent to, an owner/builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at the following address: _____

I agree to notify the **Levy County Development Department** immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure.

Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be unable to assist you with any financial loss that you sustain as a result of a compliant. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held liable for damages. If you obtain an owner/builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractors' general liability and worker's compensation insurance coverage.

Before a building permit can be issued, this disclosure statement must be completed and signed by the property owner and submitted to the local permitting agency responsible for issuing the building permit. A copy of the property owner's driver license, the notarized signature of the property owner, or other type of verification acceptable to the local permitting agency is required when the permit is issued.

I hereby acknowledge that I have read and understand the above Disclosure Statement on this _____ day of _____, 20____.

EXEMPTION FOR ELECTRICAL LICENSING

**DISCLOSURE STATEMENT FS 489.503 (6) PART II,
F.S.**

State law requires electrical contracting to be done by licensed electrical contractors. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own electrical contractor even though you do not have a license. You may install electrical wiring for a farm out building or a single-family or duplex residence. You may install electrical wiring in a commercial building where the aggregate construction cost of which is under \$25,000. The home or building must be for your own use and occupancy. It may not be built for sale or lease. If you sell or lease more than one building you have wired yourself within 1 year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You may not hire an un-licensed person as your electrical contractor. Your construction shall be done according to building codes and zoning regulations. It is your responsibility to make sure that people employed by you have licenses required by state law and by county or municipal licensing ordinances.

I acknowledge that as an owner/builder, I _____ am
Printed Name, First Name First

responsible to actually physically do the work for which I have requested the electrical permit. I understand that if I am not physically doing the work or physically supervising free labor from friends or relatives, that I must hire a licensed contractor (i.e. Certified or Registered Electrical Contractor). I further understand that the violation of not physically doing the work, not being present and supervising the electrical work, or the use of un-licensed contractors at the construction site, will cause the project to be shut down by the inspection staff of the Levy County Building Department and the revocation of the electrical permit.

I hereby assume full responsibility as the owner/builder contractor, and will personally perform or supervise all work covered by the electrical permit requested under the license exemption.
