

**Levy County Development Department  
Requirements for Steel Structure**

**\*ENGINEERED SEALED PLANS REQUIRED\***

1. Proof of ownership of land (Contract/warranty deed or tax statement)

If not owner of the property, you must have a notarized letter of authorization giving permission to pull permit on his/her property.

2. Owner's affidavit (Regarding Notice of Commencement)
3. Site plan to scale(3 copies)
4. 2 complete sets of plans (Including but not limited to: floor plan depicting post spacing and any electrical, plumbing, and mechanical devices to be installed. A cross section showing post size, post depth, concrete collars, beam size, description of connectors to attach trusses to beam and beam post, and truss spacing. All enclosed areas must be shown on floor plan including a typical framing.)
5. Verification of existing septic tank from Environmental Health Department (If applicable)
6. Owner Builder affidavit, unless permit pulled by contractor.
7. Disclaimer of liability due to flooding and/or unimproved roads. (Property owner must sign)
8. Notice to Property Owner and Contractors  
RE: Property Line Marking Requirements  
(Property owner must sign)
